

## **Fact Sheet #2**

### **Jan 14th Regular Meeting of City Council**

#### **Age of Residents**

During discussions at the meeting, it was noted that 41% of the residents in Armstrong are over 55 years of age.

From my perspective, with very limited opportunities for this age group to be active in the community during the summer, the golf course is an amenity that is more valuable to the whole community than a large residential development.

#### **Golf Carts on the Roads**

With reference to Golf carts being allowed on City streets which has nothing to do with our Society but for information only, the Minister of Transport has told the City that the two year trial in Chase and Qualicum is being evaluated before any applications will be considered.
